### MASSED ATTACK AGAINST UPPER PIAVE DEFENSES

Teutons Bending Every Effort to Crush Resistance of the Italians

### BRUTAL HUNGARY LEGION IS BROUGHT INTO ACTION

Struggle in Mountain Region is Nearing the Decisive Stage

[ASSOCIATED PRESS TELEGRAM]  
Rome, Nov. 22.—The Austro-Germans invading northern Italy yesterday reached a few of the Italian out-standing positions on the Fontana Secca, but elsewhere the Teutons were repulsed, the war office announced today.

[ASSOCIATED PRESS TELEGRAM]  
Berlin, Nov. 22, via London.—The summit of Monte Fontana and Monte Spinnuccia on the northern Italian front between the Bienta and Piave rivers have been captured, it is announced officially.

### MASSED ATTACK

[ASSOCIATED PRESS TELEGRAM]  
Italian Army Headquarters, Wednesday, Nov. 21.—The greatest mass attack which the enemy has made is in progress along the upper Piave river at the point where it bends to the northeast into the Belluno Alps. As the action proceeds the enemy is bringing forward fresh masses of his reserves, including picked troops of the Prussian guard, besides some of the best German troops drawn from the western and Russian fronts. He also has 20,000 mountaineers from Lower Hungary, troops which are noted for their brutal savagery.

The battle in the mountainous region in the north between the Piave and Brenta rivers is nearing its culmination. It centers at Monte Grappa and has become a struggle of giants. It is now clear that notwithstanding the great numbers of troops employed by the enemy and his advantages of terrain, he is able to advance only very slowly now that he is being assisted by the element of surprise, by treason and other circumstances which favored him at first. Even if the Italians should be obliged to abandon the Piave river line they may be expected to fall back more slowly and offer still more tenacious opposition.

The action through the day has shifted westward from Monte Tomba and Monte Montefiore to the slopes of Monte Petrica, where the enemy rushes have been checked. The Italian positions remain substantially unchanged in the region of Monte Grappa, which dominates the whole range of lower hills.

The monitor fleet, which is keeping with the Italian fleet off the mouth of the Piave is shelling heavily the enemy positions menacing Venice.

A number of American Red Cross ambulances passed through headquarters today toward the Piave front. The men and cars appeared to be in good condition.

Italian aviators who have flown over the invaded district of Venezia say they saw lines of the civilian population under guard, headed for Austria.

William Marconi, inventor of the wireless has arrived at headquarters and taken a place on the staff of General Diaz, the commander in chief.

The action ebbs and flows around the slopes of three low mountains just west of the river Monte Tomba. (Continued on Page 2, Col. 1.)

### HEAVY CRUISERS IN RECENT BATTLE IS CLAIM OF BERLIN

Berlin (via London), Nov. 21.—(Wednesday, British Admiralty, Per Wireless Press).—The German admiralty has issued the following statement on the recent engagement near Heligoland:

"In the engagement during the British advance into the German night Saturday there participated on the English side in addition to a large number of small cruisers and destroyers, according to reliable observations by naval forces and airplanes, six large fighting vessels—ships of the line or battle cruisers. The British naval commander, as opposed to the report of the English admiralty, which speaks only of light forces, will not be uncertain on this point.

"The advance of the British was opposed quickly by the German with adequate forces which caused the enemy to retire. According to reliable observations by German forces a number of hits on enemy ships and destroyers were obtained. German airplanes also took part in the fight and bombarded the large English warships."

### NOT A TANK DISABLED IN FRONT OF CAMBRAI SECTOR

Many Guns Captured and Dugouts Left Intact By Fleeing Huns

[ASSOCIATED PRESS TELEGRAM]  
British Army Headquarters in France, Wednesday, Nov. 21.—The present battle more than any other in the western theatre has taken on the savour of fighting in other wars when men struggled in the open and cavalry made thrilling charges against enemy guns. Many military critics have long contended that cavalry was a thing of the past, but the mounted men have refuted this claim.

Field Marshal Haig's blow against the Cambrai front represents a true strategy. He had hammered at the enemy in Flanders until they were worn out completely. He had driven them back as far as the mud would permit and had compelled them to call on every ounce of strength they had to maintain themselves. Then he suddenly sprung his surprise attack in an unexpected quarter.

The Hindenburg line on the Cambrai front were the strongest lines the Germans had laid out in the west. The enemy considered them impregnable. Not only were they strongly fortified but they were protected by a very deep belt of barbed wire which it was thought that only a protracted bombardment by great concentration of guns would cut sufficiently to allow the infantry to go through.

British tanks had never before been called upon for such offensive but did in a few hours what the artillery would have required days to accomplish. The Hindenburg line was pierced absolutely on a wide front and to a greater depth than ever before. The correspondent to inspect the main Hindenburg line near Havincourt and saw the amazing work done by the iron monsters. In most places they had no trouble either in tearing through the wire or in crossing trenches. There were gaps in the wire entanglements a rod in width where not one vestige of wire was left standing and by following the tracks of the tanks one could see where they had trundled across the trenches as though they were merely scratches in the ground instead of wide deep ditches. The tanks, of course, went through No Man's Land under the full observation of the German artillery and while the fire was weak some fire was directed on the tanks and saw where (Continued on Page 2, Col. 3.)

### OWNS 6 SALOONS IN BARRED ZONE; MUST SELL OR LOSE BARS

[ASSOCIATED PRESS TELEGRAM]  
New York, Nov. 22.—Many prosperous German business and professional men in New York will be forced into retirement as a result of President Wilson's proclamation forbidding enemy aliens to approach within 100 yards of water fronts. One German, who owns six saloons within a barred zone, appealed to U. S. Marshal McCarthy yesterday to modify the order, but he was told that any man who had been long enough in the United States to own six saloons and failed to become a citizen of the United States deserved to lose all he had. He will have to turn over his business to an American manager or sell out.

Other German business men with officers near the battery also vainly endeavored to obtain exceptions to the ruling. It is believed that the order may soon be extended to include parts of the residential section along Riverside drive, where many wealthy Germans have apartments.

The new regulations will become effective within a few days.

### ARREST HUN SPY IN UNCLE SAM'S ARMY

[ASSOCIATED PRESS TELEGRAM]  
Denver, Colo., Nov. 22.—Max Linder, a soldier in the quartermaster's department at Fort Logan, near here, and said by federal officers to be a German naval reservist, was arrested this morning by federal officers suspected of being a spy.

### MAY AMEND CONTRACTS.

[ASSOCIATED PRESS TELEGRAM]  
Philadelphia, Nov. 22.—Next year's contracts of the Philadelphia National League baseball club probably will contain a clause providing for revision or cancellation should the war interfere with the playing out of the season or cause a lack of attendance, according to W. H. Baker, president of the club.

### NOTED AMERICAN AMBULANCE CORPS NOW IN ARMY SERVICE

The Norton-Harjes ambulance unit in France.

one of the first American contingents to see service in France is the Norton-Harjes ambulance unit that has been taken over by the American army under General Pershing. The unit has done heroic work in tending the wounded and many of its members have been awarded the Croix de Guerre for their bravery. Upon America's entrance into the war several of its men joined other branches of the service. The men shown in the picture from left to right are: Mr. Norton, chief of the unit; Mr. Kemp, manager; Mr. Cardozo, engineer; American army; Mr. Osborne, Frank Mayor and Frederick A. Kramer.

### ORDERS ISSUED TO GEN. BUKHONIN TO SEEK ARMISTICE

[ASSOCIATED PRESS TELEGRAM]  
Petrograd, Wednesday, Nov. 21.—The Russian government yesterday ordered General Bukhonin, the commander-in-chief, to open negotiations for an armistice with the commanders of the enemy armies. The proposal to negotiate peace was officially conveyed to the ambassador of the allied nations at Petrograd.

The formal offer of an armistice is not intended to forecast any effort toward a separate peace.

On the contrary it is declared definitely here that not only is separate peace not desired, but that the rejection of the armistice proposal by Germany, even should it be acceptable to the allies, would mean a continuation of the war by the new revolutionary army with vigor against German imperialism until the German people, inspired by Russian democratic ideas, overthrow their rules and demand peace. Confidence is expressed here, however, that Russia's initiative will bring the desired results—if not with the allied governments, then through the insistence of the people of the allied countries, who it is predicted, will bring pressure to bear on their governments.

According to the Maximalist government's plan, an armistice would be entered upon first and if it were successful for three months, it is proposed to assemble a peace conference at which an attempt would be made to negotiate Russia's policy of a peace without annexations or indemnities, and the self-determination of nations.

### REFUSED TO OBEY.

London, Nov. 22.—An official wireless statement from Petrograd today, says that General Dukhonin has been deposed by the council of the people's commissaries for "refusing to obey their orders by offering an armistice."

### WILL NOT ASK EXEMPTION.

New York, Nov. 22.—The National league will not ask special exemption for any of its ball players and is not in sympathy with any selfish plan of discrimination in favor of its business or players, declared John K. Tener, president of the league here today.

## DISPATCHES INDICATE CAVALRY MAY SWING BEHIND THE ENEMY

### Retreat of Teutons West of Cambrai Threatened as Mounted Troops Swing Behind Shattered Hindenburg Trench System

### BRITISH WAR OFFICE CLAIMS TROOPS ARE WITHIN 2 3-4 MILES OF CAMBRAI

Berlin Admits That Ground Was Gained "Beyond Front Lines" But Denies the Line Was Broken By Attack In Front of Cambrai—Also Claim Many Tanks Were Destroyed By Artillery Fire While Attacking Forces Suffered Heavily From Artillery and Machine Gun Fire—Both London and Berlin Admit That the Battle is Continuing

[ASSOCIATED PRESS TELEGRAM]  
London, Nov. 22.—The six-mile wedge driven into the German defenses in the British offensive on the Arras-St. Quentin front is penetrating still deeper and spreading out, Reuter's correspondent at British headquarters in France telegraphs today. On some stretches of the front the British troops have broken into the enemy's final defense line.

All the German counter attacks have been repulsed. The village of Fontaine Notre Dame has been captured by the British in their new offensive, the war office announces.

The announcement follows: "Moving forward north of Cantaing yesterday evening our troops attacked and captured the village of Fontaine Notre Dame. They took a number of prisoners."

Fontaine Notre Dame is two and three quarters miles southwest of Cambrai on the main road between Bapaume and Cambrai.

An official statement on aviation operations issued tonight said that only five German machines were seen on the Cambrai battle front yesterday. The British machines worked against the difficulties of mist and rain and eleven of them are missing.

### FURTHER PROGRESS MADE.

[ASSOCIATED PRESS TELEGRAM]  
New York, Nov. 22.—Further progress by General Byng's victorious army towards Cambrai is reported today. British troops pushed further along the Bapaume-Cambrai road and captured the town of Fontaine Notre Dame, two and three-quarters miles from Cambrai.

Today's war office statement from London confines itself to reporting this single operation. What is going on with the remainder of the wide field of the British offensive so spectacularly begun on Tuesday remains veiled by official reticence. News dispatches from London however indicate that everything has not been told of the extent of the British victory. Emphasis is laid on the fact that the cavalry is reported in action in large numbers, while some reports declare that British forces have pushed northward from graincure behind the broken wing of the Hindenburg line potentially imperiling the retreat of the Germans who were entrenched between the Bapaume-Cambrai road and the Scarpe river, opposite Arras.

Berlin's account of the battle announces its continuance coupled with a denial that the front was broken, although admitting that the British had gained ground "beyond the German front lines."

It claims further the pushing back of Byng's troops west of Cambrai, where they had advanced north of Fontaine and Anneux, and a similar German success southwest of Cambrai where the British were forced to give ground south of Rumilly. Rumilly itself, however, is within 3 1/2 miles of Cambrai and the German mention of a "starting position" here evidently means the line from which the British yesterday began a resumption of their attack after their original advance, which reached nearly five miles at this point.

### WERE DRIVEN BACK.

[ASSOCIATED PRESS TELEGRAM]  
Berlin, Nov. 22, via London.—The battle southwest of Cambrai is continuing, army headquarters announced today. The enemy, the statement declared, did not succeed in breaking through, though he gained a little ground beyond the German front line.

Referring to the British attack on the Somme front, the official communication says that before and behind the German line lies the wreckage of tanks which have been shot to pieces.

The German statement says that on the west bank of the Scheldt the Germans drove back the British on to Anneux and Fontaine and that on the east bank of the river the British were forced back into their former positions south of Rumilly.

### THE TEXT OF THE GERMAN STATEMENT

"The battle southwest of Cambrai continues. By the massed use of tanks and infantry and by launching his cavalry the enemy sought to effect a break through which was denied him on the first day's attack. He did not succeed in his objective. Although he was able to gain a little ground beyond our front lines he

was not able to attain greater successes.

"The enemy troops which were effectively caught by the fire of our artillery and machine-guns and greatly thinned encountered the counter-thrust of our brave infantry.

"On the western bank of the Scheldt our troops drove back the enemy to Anneux and Montaine, and on the eastern bank to his positions of departure south of Rumilly.

"Before and behind our line, distributed over the whole battlefield, lies the wreckage of tanks which have been shot to pieces. Our aviators and motor-guns took a prominent part in their destruction.

"At nightfall fighting activity on the battlefield diminished. South of Vendille the enemy did not repeat his attacks."

### LONDON TAKES IT QUIETLY.

[ASSOCIATED PRESS TELEGRAM]  
London, Nov. 22.—Thus far England has taken quietly Field Marshal Haig's big victory in France. This morning despite the big headlines and eulogistic articles in the newspapers and the feelings of quiet exultation evidenced in private, the public went about its business as usual. Not an extra flag was flying and the bells have not yet sounded. (Continued on Page 2, Col. 1.)

### ALIENS BLAMED FOR ATTEMPTED ARSON AT WASHINGTON C. H.

[ASSOCIATED PRESS TELEGRAM]  
Washington Courthouse, O., Nov. 22.—Authorities today were making an extended search for two men supposed to be alien enemies who, last night, attempted to set fire to the elevator of the Washington Milling company, which contained 30,000 bushels of wheat. A night watchman discovered the men entering the building and fired upon them. The men managed to get away, but in their hurry left behind them apparatus which they had intended to use in setting fire to the elevator. A description was obtained of one of the men, who is believed to be a German. Feeling is running high in Washington Courthouse over the incident.

### NEBRASKA GOVERNOR RESIGNS TO ENTER MILITARY SERVICE

Lincoln, Neb., Nov. 22.—The resignation of Governor Keith Neville, as chief executive of Nebraska, was today in the hands of the secretary of state. It was offered to take effect upon the acceptance of the seventh regiment, Nebraska National Guard into the federal service. Governor Neville has already been appointed colonel of the regiment.

MASSSED ATTACK AGAINST UPPER PIAVE DEFENSES

(Continued from Page 1.) Monte Montefenera and Mont Cornelia. Monte Montefenera is just at the edge of the river and it is here that some of the most desperate fighting has occurred. It is the key to the situation as at that point the river turns into the Venetian plains and the whole battle hinges on control of the river passage leading to the plains.

The first assaults began five days ago when Von Bulow's Germans on the lower Piave were sowing southward for this supreme blow. The attacks have intensified steadily each day until yesterday an attack when they reached the maximum. Beginning with artillery preparation the Austro-German infantry advances came in successive waves, first at the northernmost mountain, Cornelia, where the Como brigade of Italians held the line crowded back by greatly superior numbers. The enemy then took positions back of the town of Quero, and violent infantry attacks were centered on Montefenera and Tomba. Much of the fighting in the mountains was at close quarters with bayonet charges and desperate hand to hand struggles and extended front. Though Monday, Tuesday and today charge followed charge and counter attack followed attack. Some of the bloodiest fighting ground has changed hands three or four times. At the little village of Naranzano on the slopes of Montefenera the enemy first gained lodgement and sought to surround the large Italian force but was thrown back by a splendid rally of the Italian lines, which swept forward with cheers until the position was clear. It was the bloodiest kind of fighting with bayonets first and then with bayonets wrenched from their sockets and used as double-edged knives.

Again the enemy massed forces higher up on Monte Montefenera backed by batteries concentrated from all points. Before this intense shell fire the Italian infantry gave ground slowly until the upper slopes were abandoned. But the fighting goes on with unabated desperation and it is too soon to say what the outcome may be of this heaviest blow to break through to the western Venetian plains.

The conduct of the Italian troops is above all praise. They are contesting every foot of the way, fighting like tigers and with spirit and confidence, even in the face of greatly superior numbers.

(Continued from Page 1.) the people to a realization of what their armies have done in France.

Unlike the Englishmen of the South African war days, when the capture of a town, the release of a garrison or the defeat of a handful of Boers was made the occasion of street demonstrations, these of today take the victories soberly and content themselves with the anticipation of bigger things to come.

It is generally known that all has not been told of the extent of the victory in France which is being extended from hour to hour.

The people were thrilled this morning when they were permitted to know for the first time that the cavalry had been in action, not only clearing the battlefield at it had done on several occasions during the past year, but in actually charging artillery and infantry and in widening the breach in the German line long acclaimed as "impregnable." How far the cavalry has gone is not known but the correspondent at the front says that early yesterday morning

TRAINS GAS AND FLAME BATTALION

Maj. E. J. Attkisson.

Maj. E. J. Attkisson is organizing and training the gas and flame battalion which the United States is whipping into shape for the trenches. The Germans are the originators of this sort of warfare, and Uncle Sam thinks it a good plan to "fight the devil with fire."

The cavalry was still pouring over the furthest hill, a good six miles from that cracked line while it is also stated by correspondents that the British line swings much farther north than Graincourt, behind the broken wing of the Hindenburg line. If the latter be true, the retreat of the Germans entrenched between the Bapaume-Cambrai road and Scarpe is seriously threatened.

SAMMIES ANXIOUS FOR MEETING WITH GERMAN SOLDIERS

(ASSOCIATED PRESS TELEGRAM)

With the American Army in France, Wednesday, Nov. 21.—The detachments of the American army which have just returned from a tour of duty in the front line trenches were badly in need of haves when they arrived at their billets. On many faces beards had made a good start and although the soldiers cared little about their appearance while in the trenches, their first thought on getting out was to procure razors.

The American soldiers are ready to swear by the new caps they wear under their shrapnel helmets. Most of them removed their helmets as soon as they were out of the fire zone and officers remarked that the caps greatly improved the appearance of the soldiers. The men wear them cocked smartly over one ear. Each cap has a little regimental numeral near the front.

Troops belonging to units which have seen more action than the others, had stories to tell and the less lucky comrades as they call themselves, listened attentively during the long ride on the trucks on the return to the billets. Most of the motor trucks arrived at the billet towns after nightfall. The soldiers were dismissed promptly but each took a bath before he went to sleep.

The officers all spoke enthusiastically of the morale, energy and fighting spirit of their men. One said that his hardest job in the trenches was refusing permission to go on patrol, adding:

"All want to go all the time, which is impossible."

LOSSES BY U-BOATS ARE INCREASED IN WEEK; 16 ARE SUNK

London, Nov. 22.—A British patrol vessel was torpedoed by an enemy submarine in the Mediterranean Nov. 18, according to an admiralty statement issued last night. Four officers and five men of the crew were killed.

London, Nov. 22.—Seventeen British merchantmen were sunk by mines or submarines last week, according to the weekly statement issued by the admiralty. Of these, 10 were vessels of 1000 tons and over, and seven of less than 1000 tons.

Last week's record of British merchantmen sunk greatly exceeds that of the previous week, when only one vessel of 1000 tons or over and five of less tonnage were sent to the bottom. In fact, it represents in aggregate the greatest number of vessels destroyed since the week of Oct. 15, when 15 were lost since then there had been a gradual falling off in shipping losses, until the minimum campaign began was reached Nov. 11, with a total of six.

BRITISH CAVALRY TAKES GUNS AND RESCUES TANKS

(Continued from Page 1.) shells had struck all about, apparently without doing any damage, for in this whole section the correspondent did not see one tank which had been knocked out.

The confusion of the German troops showed plainly that occupants had abandoned them in a hurry. All sorts of equipment and personal belongings were strewn on the ground.

Since the beginning of the attack, the gun fire had been extremely weak. No Man's Land showed comparatively few shell craters today, and this morning the British guns were doing virtually all the firing about most of the front involved. This is a striking contrast to the Flanders region which has been an arena of artillery fire for weeks.

The Germans have attempted very counter attacks thus far and all of them have been smashed. The latest counter-attack reported as made last night near Demicourt and this was dealt with promptly.

The Germans who at the first attack revealed or surrendered in dismay were fighting desperately today to regain a hold on their rear positions. A particularly hard hand to hand engagement occurred this morning at Flesqueres when the infantry, accompanied by tanks, formed this place and drove the Germans from it. The fighting about Flesqueres lasted long but it was not until about 8 o'clock today that the British made an organized assault on the town. The tanks went ahead and were engaged immediately by seven heavy German guns which began to fire at them from a short range. It was a critical moment for while the tanks will withstand heavy fire they cannot be expected to stand up long under big shells hurled from guns only a short distance away.

The British infantry which swarmed through behind the tanks and the predicament of their front ranks and deliberately charged the enemy artillery with rifle and hand grenades. All the guns were captured and their crews were killed.

A similar incident occurred at Pienry Chappelle, northwest of Maroing where three guns were stormed and their crews unhurt. Some of the most spectacular work of this nature fell to the cavalry. The mounted troops got into Maroing and Masnières last night and, in latter town engaged in a sanguinary battle with German infantry. An enemy battery there was giving trouble and a squadron of horsemen charged the position shooting or sabering the entire gun crew. Another battery at Rumilly was taken in similar fashion.

Graincourt was carried by storm, cavalry, tanks and infantry working the ground. British forces at the latest reports have carried their line in this section northward to the Bapaume-Cambrai road.

The Germans ran from Ribecourt with the British close at their heels. This town is a mass of ruins partly on account of shell fire and partly from lack of repairs.

The German dugouts were left intact. The occupation of Maroing and Masnières was a great stroke for the British as it gave them much needed crossings for the Escaut river and canal, which formed a natural barrier to the advance from this direction. Cavalry, infantry and tanks were poured immediately across these passages and proceeded to work northward.

Military necessity precluded the mention of cavalry in the first dispatches regarding the present offensive but it may now be said that the mounted men went into action at 11:20 o'clock yesterday morning after the tanks had opened the way through the barbed wires. This was one of the features of the battle in which General John J. Pershing appeared to take deep interest while he was at the front yesterday. It has been a wonderful two days for the horsemen who had been relegated to rear areas of the western front, with a few exceptions, since early in the war. Thousands of them have been operating over a wide area beyond the Hindenburg line.

STATES WITNESSES TESTIFY IN BLACK ARSON HEARING

In common pleas court on Thursday morning the trial of the case of the State of Ohio vs. Sanford Black was resumed to the court and a jury.

The defendant, who is a well known young man of Hebron, is charged with setting fire to a dwelling house occupied by him in June of this year. The investigation of the fire was made by Joseph P. Hershberger, Jr., and John Baird of the state marshal's department at Columbus. The state witnesses were heard on Wednesday afternoon and Thursday, the state concluding its evidence on Thursday afternoon. A number of witnesses have been summoned to appear on behalf of the defendant and the case will probably occupy the major part of Friday.

NO EMBARGO UPON FLOUR AND SALT; ANOTHER LIE NAILED

A rumor afloat about the city that an embargo had been ordered on flour and salt has caused a run on these commodities at the various stores in the city.

Inquiry of both the B. & O. and Pennsylvania agents brought forth statements that they had not been informed of any such embargo. It is probably that the sugar shortage has caused people to become alarmed about other things, and it is hardly possible that such an embargo will be declared as sugar and salt, are foodstuffs.

FACES OTHERWISE PRETTY OFTEN DISFIGURED BY PIMPLES, BLACKHEADS AND OTHER SKIN BLEMISHES

A Few Short Treatments with Butter-milk and Cream Make Skin Clear, Fresh and Charming—Tells How.

No matter how pretty you are you cannot be truly attractive with a rough, pimply complexion. The old time application of buttermilk cream to whiten and preserve the skin is still the best and is all that most complexions need to make them clear, fresh and charming.

Most women, however, will be glad to know that though preparing the old-fashioned mixture at home is messy and troublesome, they can now obtain at any drug store the ready-to-use preparation called "Howards" Buttermilk Cream.

You simply bathe the face in warm water just hot enough for the heat to be pleasant to the skin. Dry and rub gently. When the skin looks pink and feels soft and warm, apply a liberal quantity of Buttermilk Cream rubbing well into the pores for about 3 minutes. Continue the treatment every night and see how, after a few treatments your complexion blemishes "fade away."

If you are having trouble with your complexion, or if you feel an unattractive skin handicaps you in social or business life, a week's trial of "Howards" Buttermilk Cream will solve your problem for you—Advertisement.

## DRAFT QUESTIONNAIRE.

It is now up to 9,000,000 young men of military age to answer the questions the United States government puts them about their suitability for military service. It will be interesting to see how the blank forms come back in Newark. Many fellows who left school early never before sat down to answer any kind of a written examination. There will be great cogitations before the 26 or more answers are set down in black and white.

To some men the form will seem needlessly complicated. But there is no other way to get a thorough survey of conditions in each instance. The first set of exemption cases had to be handled in a very hasty way. The country demanded the immediate assemblage of a great army. There was little time for deliberation or investigation. No doubt some who should have served, managed to get exemptions. And some who should have remained at home were forced to go.

Now there will be somewhat more time for discrimination. Every man should take pains to answer his questions intelligently. If he doesn't understand them, or can't make out a legible paper, he should secure help.

Many, of course, will seek to dodge service for insufficient grounds. It will be a risky thing to try to deceive. The exemption boards should be slow to take the unsupported word of unknown men. Unless a man has a positive reputation for truth-telling, independent investigation of his statements will be desirable.

This is not a time when government officials can be trifled with. The man who answers the questions squarely and sincerely will avoid trouble. He will have the satisfaction whatever happens that he did his duty.

## SIGNING FOOD PLEDGES.

Some Newark people are saying that they believe in the idea of food-saving, only they do hope they won't be asked to sign any pledges to do it. They don't want to pin themselves down to anything. They believe in wheatless and meatless days. But if they signed agreements to keep them, then there might be times when it wouldn't be convenient, etc., etc.

It is easy to see the finish of the food conservation movement if people generally take that attitude. At least it will come short of what we ought to do toward winning the war. To accomplish anything in this world, you must have some kind of organization and agreement. There is something in human nature that can't seem to act in an unorganized way as separate individuals. If people set out in a merely for-

mal way to follow the government requests, little by little they will drift back to the old ways. The wheat and meat that our soldiers and allies need so badly will be exhausted. The idea will spread that few people are observing the requirements, so why should we?

But the moment you get people to agree to something in black and white, that puts it on a sound basis. People then feel their word of honor is involved. Every person who signs the pledge takes a just pride in speaking of it to his friends, also in suggesting ways to observe it comfortably and pleasantly. They are interested to persuade other people to do the same thing.

In this way a movement becomes popular, and is accepted as the correct and right thing. People then do it to be in the swim and play the same. It is not as if some real sacrifice were asked. It is just a bit of change from regular habits, that will be equally agreeable after a very short time of trial. Many hundreds of Newark homes are displaying the food conservation cards in their windows, but hundreds of others show no cards. Why?

## BOMBING RAIDS.

Great hopes are entertained of what the new United States fleet of airplanes will be able to do in bombing raids. It is interesting to note the ideas of the technical writers as to how these raids should be conducted. It was recently stated, and if so, it is a point of some importance, that the new Liberty motor will be noiseless.

Much is expected from raids made at night, or, at least, on nights dark enough so that the airplanes would be an elusive mark, yet not so dark as to wholly conceal objects on the ground. The machines are equipped with lights on their tips and tails, so that a fleet can navigate without danger of collision. The idea has been that they could penetrate far into the German lines, and deliver a heavy load of bombs on munition plants and storehouses before the Germans could locate them in the uncertain light.

These planes are thoroughly protected by anti-aircraft guns and defensive airplanes. Yet some of the technical writers say that the guns on the allied airplanes could shoot out the searchlights with which the enemy would locate our planes. This seems to involve a pretty high range of marksmanship, under the very difficult conditions of air-fighting. To the onlooker it hardly seems likely that it could be done effectively.

But if the United States motor proves to be so noiseless that it can swoop down on an enemy city without being discovered before it begins its deadly work, its chances of success would be much improved. The quieter the machines, the better their chances of avoiding attack in night-fighting.

Considering how automobile engines used to chug-chug in their early period of development, and the noiseless motion they have now attained, the prediction of a noiseless airplane motor seems likely to be fulfilled.

After allowing the oppressed of all nations to come to this country, some of these oppressed turn around and burn our supplies, send off deadly bombs, and murder people who buy Liberty bonds.

The Germans aren't alarmed over our big air fleet, as they have it straight from Kaiser Bill that American boys never dare ride in anything more sporty than a farmer's buggy.

The people who put out a lot of talk favorable to Germany where the people are held down by tyranny, are usually the same ones who claim to be the apostles of popular rights.

From the way the Russians drink in the representations of the German spies, it is evident that the green goods and shell-game men's own place has been located at last.

"The public be jammed," is said to be the motto on more than one trolley line. It may even apply to some of the cars that run between Newark and Columbus.

These opera stars who came over here for more money, but who can't sing the national anthem, of course look down on the Americans as mere dollar-chasers.

When our young women friends begin to spell their names Mabelle, Kathryn and Ethyl, it is hard to believe when they say they like the simple life.

It is still possible to enjoy a very thankful Thanksgiving, without having a turkey big enough to feed an orphan asylum on.

All a food-dealer has to do to make money now is to go out and start a rumor that something is scarce.

## SUPPRESS SMOKE, CONSERVE COAL.

(Philadelphia Record.)  
One way of saving coal is to prevent the waste resultant from imperfect combustion. It has been estimated that one-fourth of the potential heat units in the coal used for generating steam in the United States are lost through sheer carelessness. Part of the loss goes up the chimney in smoke, and part in the form of unconsumed gases. Investigations conducted by and experiments made under the direction of the United States Bureau of Mines, the Chicago Board of Trade and the Mellon Institute of Pittsburgh, and covering a long series of years, have demonstrated that nearly all of this waste could be prevented by proper stoking. Incidentally, a public nuisance would be abated; and damage avoided to the property, health and comfort of third parties, which in their totality greatly exceed even the value of the coal wasted.

There is no occasion for the Fuel Administration to study the problem anew. The factors thereof are well known and recorded in official reports, as also are the means of a solution. No hardship would be imposed on the wasteful consumer by requiring him to be careful; on the contrary, he would profit thereby. Whether the Fuel Administration has power to enforce anti-smoke ordinances—or to proclaim such ordinances in municipalities where none exist—might be a matter for argument if the nation were not under a compelling necessity to conserve its fuel. But if the Fuel Administration has the power to prevent waste by curtailing the supply of those who neglect or refuse to be economical in the use of coal, the manner in which reckless or needless consumption manifests itself would be a matter of indifference. A consumer who insists upon using four tons of coal to obtain results that could be obtained with three would certainly not be out of the jurisdiction of an administrative body clothed with authority to exercise the war powers of the Government.

There are few municipalities which do not have some kind of a smoke ordinance and a force of smoke inspectors. Where the law and the administrative machinery for carrying it out are inadequate, or where they are non-existent, the same would have to be provided. The exercise of war functions of the Federal Government with the aid of local officials would be nothing new; it has been done in previous wars, and also in the present. Of course, the penalties prescribed in the smoke ordinances could not be enforced by the Fuel Administration. The latter, however, could penalize wasters by withholding coal from them; and this penalty would doubtless be effective. Considerably over 400,000,000 tons of bituminous coal are consumed in the United States yearly; to save one-fourth of this and suppress unnecessary smoke at one and the same time would surely be worthwhile.

Newark's first smoke consumer was installed in a downtown building a few weeks ago. One advantage noted immediately was the elimination of the smoke nuisance so far as that one building is concerned and the engineer testifies that there is an appreciable saving in fuel too.

## STANDARDS OF LIVING.

(Ohio State Journal.)  
We hear much of the standard of living, and that what a man earns now does not buy as much as it used to. Well, what else does he expect? Who is paying for this war, and who supports the boys on the front? Why, everybody does, by simply living on less than he used to.

It is the difference between the standard of living now and the standard before the war that is paying for our part in the battle for democracy. Where do you suppose the \$30 a month paid the soldier boys and the cost of their food and clothes come from? Out of the air? No, indeed. It all comes from the self-denial of patriotic men and women who accept the burdens of the war days without murmur or complaint. This nation is weakened by extravagance and profligacy. It is strengthened by self-denial and economic living. The duty of a true American is as plain as a mountain side.

## THE SALUTE AGAIN.

(Rochester Herald.)  
We commented the other day on the opinion expressed by a soldier-correspondent from a camp in Northern Illinois that the military salute ought to have to "go," because as one might easily infer from the complaint that young men of the "upper ten" were averse to saluting officers who might in civilian life have been classed merely as "rough necks," or hoi polloi, at best. Something of that sort has cropped out in the South, it seems, where subdued Southern nobility demurs to the salute, for the reason that it sometimes has to be given to a negro officer.

Word of this attitude appears to have stirred General John B. Castleman, of Louisville, to wrath. General Castleman is a veteran. He was a major in the Confederate army, and being fully reconstructed, served in the Spanish-American war. Concerning the salute, he says:

"The discipline of the army must be maintained, and non-commissioned officers understand little of the spirit of the army when they refuse to salute a negro officer. I have held several commissions in the military service, and I unhesitatingly say that I would or will at any time salute an officer, superior or inferior, who salutes me, without regard to the color of his skin. We salute the rank, not the individual."

There is no other view for a man of common sense to take of this question. War is not a pastime, and an army is not a baseball aggregation. A man who goes into the service must be absolutely under the control of the discipline which has been adopted. For the time being, he shoves all his prejudices so far as they are calculated to interfere with his efficiency, whether they be prejudices of politics, sectarianism, or

race. If men were to be denied distinction for valor because of social standing, politics, religion or race, we should have a sorry lot of heroes in this country. The army would be a mere mob. The may hope that other army officers will join with General Castleman in an effort to stamp out this snobbishness which is creeping into the modern army.

An Advocate man was talking with an officer at Camp Sherman a few days ago when the subject of the salute was brought up and the objections referred to in the foregoing editorial from the Rochester newspaper were mentioned. "If the men only realized that the salute is a greater annoyance to the officers than to the enlisted men they would perhaps look at the matter differently," the officer said. "It is the duty of every officer to salute his superior officers and it is just as much a duty for the officer to return the salute. Why, when I go to Chillicothe, my right arm is kept constantly on the move acknowledging salutes, whereas, if I were a private, I would have only a fraction of as much saluting to do."

## LOYAL LABOR.

(Cleveland Plain Dealer.)  
Labor is loyal. The workmen of America, organized or unorganized, realize the peril that would lie in a triumph of Prussianism. Monday's vote of the American Federation of Labor in national convention at Buffalo supporting the patriotic stand of its president, Samuel Gompers, causes no surprise. It merely confirms what every observant American knew before.

This is not a war of classes, but a war of nations. It puts no greater burden upon one element in the population than upon another; offers no greater incentive to one than to another for the vigorous prosecution of the conflict.

From the moment of America's entrance into the war Samuel Gompers, recognized head of organized labor in this country, has exerted every ounce of his great influence on the side of the government. There has been no time when anyone had the least reason to doubt exactly where this leader stood. If there were any scepticism, it has long since been dispelled. Gompers did not represent those whom he had been so often elected to represent, so far as the American war issue was concerned.

So the question came to a vote in Buffalo on Monday. Of 450 delegates in the convention, fifteen were recorded in opposition to the Gompers loyalty resolution.

The verdict is unmistakable. In labor groups, as in other groups, there is likely to be found an occasional blatant traitor ready to wish upon his country a German peace, ready to brand his fellows with the stigma of his own narrow-mindedness. But this occasional disloyalist speaks for himself alone. His blindness to fact and reason is his blindness, and no one's else.

No element in America would lose more by German peace than workmen. No class will profit more by a lasting, democratic peace. The war demands much of labor, but it offers much to labor. Full-hearted participation in the war on the part of workmen will bring benefits beyond estimate of value to generations to come.

Americans stand united behind their government in this crisis. The few who cry for immediate peace even at the price of Prussian triumph are more noisy than numerous and their blarney tends to become less assertive as the public comes to realize better the vicious nature of German aims.

The Buffalo vote of organized labor in convention will be read everywhere with keen interest. Berlin will see in it the failure of another effort to undermine American solidarity by intrigue.

## Spirit of the Press

**The Great Danger—Politics.**  
The Allies, notably France, seem to be particularly accused, at this time, with a lot of ambitious men who are putting themselves first before the great cause, by playing politics, and the gloomiest news issuing from Europe in many days is to the effect that a schism between the Allies' political and military leaders is generating. The French cabinet resigns under fire. London is all excited over reports that Gen. Haig would not stand for the proposed Allied military commission. In Russia, a dozen groups are fighting for power. Cadorna threatens to go on strike. On the other side is the Kaiser with all his allies and his allies' resources in the hollow of his iron hand. If there ever was a time when the whole people of the United States should make war their sole business, as a business, it is now.

We've got to supply Europe not only with men, money and munitions but with morale, or the present advances from Europe are tremendously deceptive. —Washington Herald.

**Danger from Aliens.**  
We are technically at war only with Germany; but practically at war as well with Austria-Hungary, Bulgaria and Turkey, and that fact makes a difference in government's efforts to prevent destructive crimes at seaport water fronts and in plants and factories manufacturing war munitions for our own forces and our Allies. We cannot bar Austrians, Hungarians, Bulgars or Turks from the zones interdicted to German aliens. Yet there are millions of them in this country and they are as free to come and go, anywhere and everywhere, as they were before the war. Among these millions there must be a host who are openly or at heart kept partisan of the Central powers and their enemies of the American government and its cause. They should be put under exactly the same control that is applied to German aliens. —Spokesman-Review.

**Land Plentiful, Labor Scarce.**  
And now the single farmers come to bat with their "I am Sam" confederate all land either by taxation or otherwise in order to "save America from starvation." This is bunk of purest ray serene. We are facing

## "I AM WITH YOU IF YOU ARE WITH ME."—PRESIDENT WILSON

a big food production problem; every intelligent child in America knows that. But it is a problem chiefly of labor and not at all of land. We have more farming land than we can use under present conditions. In addition there are still large undeveloped areas in the United States which have never been used for farming, but which could be used for that purpose next year if we had the men to clear the ground and later on to plow and cultivate it. —Cincinnati Times-Star.

## Kaiser and His Plea.

The eminent violinist who is also an Austrian captain on leave of absence, explains that the money of which he is sending to Austria from the receipts of his concert in the United States is intended for the support of his father. This, if an accurate statement, reflects credit upon the violinist. But, in all seriousness, would it not be better policy, on the part of the United States, to bring the father over to the son and place both in a comfortable internment camp, where they would be under no living expense whatsoever? Or, in the interest of art, must the United States continue to bear patiently with the too evident assumption, on the part of a certain class of musicians, that it is soft —Christian Science Monitor.

## Pointed Observations

Because Germany refused to listen to the voice of Goethe, Heine, Beethoven, Wagner and Schiller, and instead listened to the Kaiser and his clan, Germany is the Ismael among the nations. —Emporia (Kan.) Gazette.

Mr. Hoover is out with a plan to cut the food of interned Germans from five to three meals a day. No frightfulness. Herb! —Washington Post.

## THE OLD RELIABLE BLOOD BUILDER

Still retains its supremacy. People still take Hood's Sarsaparilla because it is an old family friend, because it has proved its worth in three generations — in purified blood, expelled humors, restored appetite, relieved rheumatism, banished tired feelings.

It long ago became recognized as the standard blood purifier and general tonic. It originated in a Boston physician's successful prescription, and comprises medicinal roots, herbs, barks and berries such as are often prescribed for ailments of the blood, stomach, liver and kidneys. Buy it in the same style package your mother bought it in — same fine appearance, same pleasant taste, same certainty of good results. —Advertisement.

## The Advocate's MELTING POT

No enjoyment, however inconsiderable, is confined to the present moment. A man is the happier for life from having made once an agreeable tour, or lived for any length of time with pleasant people, or enjoyed any considerable interval of innocent pleasure. —Sidney Smith.

**Very Well, Then!**

**Not a Bad Solution.**  
Aunt Caline says:—Yesterday Etta Lott was a-gettin' ready for some company an' at the last minute she found she didn't have no vinegar so she gave the little jug to Iva, which is her little young dotter, an' told her to go down to Hil Price's store an' get a quart of vinegar, an' fer pity sake to hurry. So little Iva she hurried off reel proud to go to the store by herself. She was so tickled at the

thought o' bein' big enough to go by herself that by the time she reached the store an' Hil had time to wait on her she forgot what it was her mother had sent her fer. She stood there a minnit a-tryin' to remember an' a-tryin' not to cry an' all at once she smiled reel broad an' handed up the jug to Hil an' says she, "Smell this, Mr. Price, an' then give me a quart of it," she says.

"The nut is pretty," she thought,  
"Who gets a date with me?" —Answers.

This caught the eye of a young man, Eliciting this speech:—  
"No dates with nuts for me, I plan To make 'em with a peach."

**The Hurtful Truth.**  
"I cannot marry you, James Henry. You are too rich. Folks would say that I married you for your money."  
"But what do you care what people say?"

"Ordinarily, James Henry, I shouldn't care at all. But in this case it would be true." —Detroit Free Press.

**Folks!**  
"This one fact is certain, we all understand. That a ferry boat never could travel on land."  
And yet you'll agree with me," said Mr. Potts.

"When I claim that a ferry boat goes across lots!" —Luke McLuke.

Another thing seems quite peculiar to me. One really does not see how it can be. But by observation this fact I've acquired.

That an automobile travels best when it's tired.

**Paradoxical.**  
He called that guy on the 'phone. He called him up you know, because. He wished to call him down. I. G.

**"Roses" For I. G. Gettit.**  
A versatile poet indeed is our I. G. Gettit. He writes the ridiculous as well as the sublime.

Yesterday, by a patriotic song, our hearts were thrilled. Today with lowly corns and bunions his verse is filled.

His tomorrow's brain child we await most fearfully. Not daring to guess what its theme will be.

For he who in a fit of violent brain storm Can weave a romance around bunions Will seize the quill the immortal Homer laid down.

To give to the world an epic, "The Bumble Bee's Crown." —Willie Wind.

**Melting Pot Poetry.**  
Editor Melting Pot:—We'd like to inquire whether the following paragraph taken from the Newark Advo-

cate of recent date was a bit of sarcasm hurled at the Melting Pot contributors:

"Three-cent postage has upset business a good deal, but it has not interfered with the amount of poetry offered to the newspapers."

Certainly not. Every editor likes to receive real poetry but all newspapers are flooded with stuff that has neither rhyme nor reason. In fact the "Pot" would not be of great interest to the public if Willie Gettit, I. G. Gettit, Me. F. L. E., Willie Winn, F. G. I. and a few others would forsake us. By the way, it's been some time since F. G. I. has reported. Is she ill or mad or anything like that?

**F. G. I. Me.**

**Look Folks, Bull Did I.**  
When we tellers march thru Germany they'll know that we're sincere, We'll wipe the ground up with 'em, we'll put sugar in their sauerkraut, and also in their beer. When we go marching thru Deutschland.

**Chorus.**  
Hurrah, hurrah, we'll bring a gatling gun, Hurrah, hurrah, we'll shoot them on the run, So we'll sing the chorus from Boulogne to Berlin. When we go marching thru Deutschland.

We'll tell them we've got their goats, we'll laugh at them in Dutch. In Hamburg we'll convert them into sticks or else Xome-Sure, to the tune of "Marching Thru Georgia." And whatever we may do, why we'll enjoy to do it much. When we go marching thru Deutschland.

When der Kaiser sees us coming he will hold. "Ach, ein Gott! But we won't have no mercy, we'll just fill him full of shot. Then we'll bring him back to Newark and we'll show him in the "Pot. When we go marching thru Deutschland. (Patent applied for.) Willie Gettit.

**Did You Know**  
That the boomerang, as a missile for war or sport, was in use by the aborigines of Australia? It is of hard wood of parabolic shape, about two and a half inches wide, one-third of an inch thick, and two feet long, the ends being rounded. One side is flat and the other rounded. It is thrown in a particular manner, being taken by one end in with the bulged side downward and the convex edge forward, and thrown directly onward, as if to hit someone thirty yards in advance. But instead of going directly forward it slowly ascends, whirling round and round, and describing a curved line of progress till it begins to retrograde, and finally sweeps over the head of the thrower and falls behind him. The air impinging on the bulged side of the missile forces it around just as a windmill is driven.

### Klar's Good Health Flour

**A Perfect Food**  
Not a whole wheat or Graham but a scientific arrangement of the Brain, Nerve, Muscle, Bone and Tooth elements with all the waste matter removed. White Flour is principally a carbonate, producing heat or fat. This wonderful preparation has cured nearly all of the human ailments, because it rebuilds and purifies the entire system. It has ALL the elements to rebuild the system and you can dispense with meat and obtain health under ordinary conditions. We guarantee every pound and if not satisfactory in every respect, return the empty bag and get your money. If it increases you mentally and physically, please tell your suffering friends. It is impossible to contract consumption, appendicitis, etc., unless you eat meat. You can use Klar's Good Health Flour in many more ways than the common white flour. Why take the nitrates and phosphates, the life elements, and feed them to the cattle? Why not eat them in their natural condition and save the system from excess of uric acid and many disease germs by eating the meat.  
1. It will positively cure constipation.  
2. It will end stomach trouble.

## PLAYS DRAFT LAW IN LABOR MEETING WORDS REPUDIATED

(Associated Press Telegram)  
Buffalo, Nov. 21.—The favorable report yesterday of a resolution calling for the conscription of citizens of allied nations in this country brought on one of the most heated debates of the annual convention of the American Federation of Labor. It reached a climax when Thomas Black, a Canadian delegate who characterized conscription laws as "dastardly legislation" was called upon to retract or leave the floor of the convention.

The committee's report endorsing the resolution was adopted by a vote of 244 to 20 and a storm of cheers. But not until a large number of the delegates and President Gompers had replied to Black and Delegate Gary from Toronto had declared that Black's statement did not represent the sentiment of Canadian Trades Union men.

The demand for a retraction from Black was not put in the form of a motion and the matter was dropped after the adoption of the committee report.

## 300 FT. BEN. STUDENTS ARE TOLD OF FAILURE

(Associated Press Telegram)  
Indianapolis, Nov. 2.—Students at the second officers reserve training camp at Ft. Benj. Harrison near here, who will not receive commissions were notified yesterday that they might as well depart for their homes. They will be permitted to leave the camp as soon as they have made all arrangements. More than 300 students received the notice and most of them began packing their property at once. More than 1800 in the camp did not receive intimations that no commission await them.

**WILL PROTECT VENICE.**  
Paris, Nov. 21.—The Matin says that the Austrians agreed to spare Venice, in response to an appeal from the Vatican but that all authority must be left in the hands of the patriarch. It is certain, the newspaper adds, that Venice will not be defended in the event that a further retreat of the Italian forces becomes necessary.

**NILES MAN WOUNDED.**  
Ottawa, Ont., Nov. 21.—In the list of American names in today's casualty list is that of Ralph Watkins, Niles, Ohio, who is wounded.

## AMUSEMENTS

**ALHAMBRA.**  
Tonight's new picture Brady made bears the title of "Shall We Forgive Her" and it will be shown at the Alhambra theater. In this production the stars are June Elvidge and Arthur Ashley and their parts are particularly effective and impressive. There is plenty of action in this picture, plenty of zip and go, a fine love story and many thrilling moments. You can't go wrong in seeing this feature.

**Friday and Saturday.**  
Mary Miles Minter looks her prettiest and is happily cast in her latest American-Mutual production, "Leads the Way," a story of one of those little mountain towns which are reached only by stage.

Miss Minter does all sorts of country stunts, such as driving a buckboard over mountain roads, taking charge of a father's store and doing a thriving trade in crackers and cheese, as well as putting the run-down establishment on a cash basis to the surprise and disgust of oldtimers who have been wont to free lunch on the stock.

**GRAND.**  
A vindictive siren of Paris and Monte Carlo, notorious for her evil charm and treacherous intrigues, becomes the angel of the armies of France in "Sweetheart of the Doomed." Triangle-Ince play starring Louise Glaum will be shown at the Grand theater on Thursday and Friday.

Already famous for her startling guises and her vampire portrayals in "The Wolf Woman" and "Somewhere in France," Miss Glaum surpasses herself in the emotional role of this drama, written by John and Josephine M. Wilson. Her spiritual transformation from the woman seeking vengeance against men for a deception of her youth to the woman who sacrifices all creature comforts to perform humiliating service for the heroes.

## A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes  
—Most Women Can Have

Says Dr. Edwards, a Well-Known  
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

of France is undoubtedly the star's finest delineation.

**AUDITORIUM N.**  
Birth of a Nation.

The Auditorium will today offer to Newark show goes the greatest feature picture shown "The Birth of a Nation." This remarkable picture has been presented throughout the country for nearly four years, before it reached Newark and consequently many people had witnessed it outside of the state also in Columbus, where it was shown for seven straight weeks, turning away crowds. But notwithstanding this it may be said in truth that its great success elsewhere will be duplicated here in our city, for the advance sale for the entire engagement has gone far above expectations, but there still remains many good seats for all performances, especially the matinees. Manager Fenberg predicts one-fourth of the Newark population will see this wonderful massive production. This makes it easier to comprehend the statements made by the advance newspaper reports that 50,000,000 have viewed it since it was produced. When it is considered that 38 companies toured the country season before last, to 1907 or 15,000 weekly for forty weeks, it is not so hard to realize that the army of spectators quickly run into the millions. At least 2,000,000 people in greater New York saw it before it went on the road.

Seats are now selling for the entire engagement and it would be well for all who expect to see one of the showings to purchase them in advance, otherwise they will be unable to secure seats. Do not delay, but do it now, that is if you want to see "The Birth of a Nation" today, tomorrow or Saturday. The production is given in its entirety both afternoon and evening. A symphony orchestra of twenty musicians is carried and they play from start to finish. This is one of the real treats of the theatrical season and Mr. Fenberg should be congratulated on being able to offer it to the Newark public.

**Mary Pickford.**  
The Auditorium offers for next Sunday, Monday and Tuesday, dainty little Mary Pickford, who is seen in the Art-Craft production of Kate Douglas Wiggin's famous story, "Rebecca of Sunnybrook Farm."

The little country girl with all of her introspective mood, with her remarkable escapist with other children, with her famous effort at composition in which "one tries one's best to do something out of one's talent" and her adventures at school, where she has to protect herself against constant aggressors—all of these go to make up a story which has delighted the hearts of America. The cast that has been chosen for this creation is particularly fine, for not only is Miss Pickford to be seen, Eugene O'Brien, Charles Ogle, Josephine Crowell, Jack McDonald, Violet Wilkey, Frank Turner, Kate Conroy, Emma Gerds and others. As an added feature for Monday a Mack Sennett two reel comedy will be shown.

**Auditorium Notes.**  
Next Wednesday for one day only Billie Burke will return to the Auditorium in "The Mysterious Terry," the feature that she made such a wonderful success with, when screened at that house several weeks ago.

A special Thanksgiving treat is promised all when the Auditorium shows the big Wm. Fox feature "Jack and the Beanstalk" for three days beginning next Thursday.

The Retreat of the Germans at the Battle of Arras, played at the Grand theater Akron last week, showing to over 15,000 people on the week. The picture was said to be the best ever feature so far brought over showing the present conflict. It comes to the Auditorium the first week in December.

Newark music lovers will have the treats of their lives when they hear the 20 musicians with the "Birth of a Nation." The music with this attraction is one of the big features of the production.

It may not be known, but it was D. W. Griffith who first unionized his entire studios on the Western and Eastern coasts. He will not have a workman connected with any of his plants unless he is a union man.

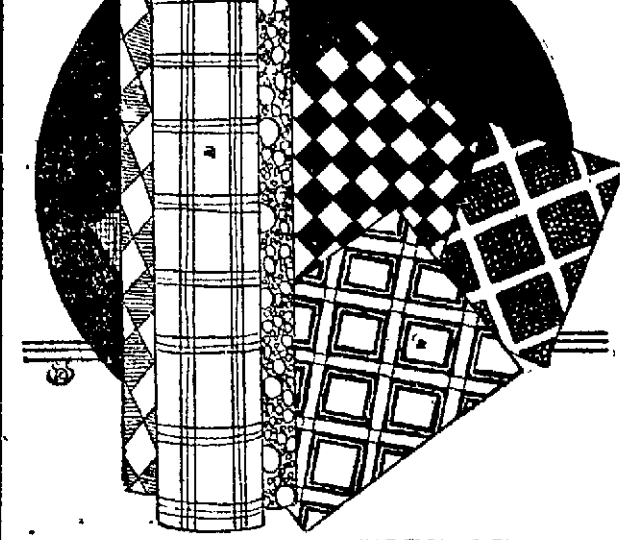

"Arms and the Girl" with Billie Burke, her second Paramount feature comes to the Auditorium early in December.

When shown in Columbus a short time ago "Sunnybrook Farm" with Mary Pickford was given morning screenings. This was necessary owing to the large crowds and the picture was also held over for the second week. The engagement here is for three days only, and it starts next Sunday.

The love of his son is made the keynote of a remarkable picture, "Redemption" that Evelyn Nesbit and Russell Thorne are soon to be seen in at the Auditorium.

## About 3,000 Sq. Yds. of Regular 50c Grade of Neposet Linoleums on Sale

**TOMORROW AND SATURDAY  
At Square Yard Only  
39 Cents**

During the last month we have sold several thousand yards of 2-yard wide Neposet Linoleums—some at 39c and part at 50c a square yard.

As we have received a large shipment at the old price, we have decided to place on sale about 3,000 yards at the wonderful low price of only 39c a square yard.

These linoleums are supreme in many ways—finish, patterns, wearing qualities—and being absolutely waterproof they are rot proof. Water has no effect upon them whatever. Better buy what you need tomorrow and Saturday, at square yard—only **39c**

## SOCIAL EVENTS

SOCIETY EDITOR, AUTO PHONE 23123.

The Trinity Sewing club will meet at the home of Mrs. Alda Scott, 24 East Church street, on Friday afternoon at 2 o'clock.

The regular meeting of the Daughters of Liberty will be held on Friday afternoon at 2 o'clock at the home of Mrs. J. M. Bennett, 99 Wing street. It is desired that every member be present.

The members of the Unity Sewing Club were entertained on Wednesday afternoon at the home of Mrs. Charles Jones in Burd street, Granville. The hours were pleasantly spent and following the business of the club, the time was devoted to Red Cross work. Delicious refreshments were served by the hostess to the members and following guests: Mrs. George Rugg, Mrs. Orville Jones, Mrs. Harry Detro.

The next meeting will be held at the home of Mrs. E. L. Jones in North street, December 6.

**Miller-Cramer.**  
Mr. Jesse L. Miller and Miss Osce C. Cramer, young people residing in the vicinity of Croton, were united in marriage by Dr. L. C. Sparks at his home in North Fifth street, Wednesday at 4 o'clock. They will live on a farm near Croton.

The members of the St. Ann society will meet on Friday afternoon at the home of Mrs. Ray Vogelmeier, 25 Fulton avenue.

Miss Lois Marple entertained with a six o'clock dinner on Wednesday evening at her home in North Fourth street, honoring Miss Millie Daugherty of Glenoid. The guests were Misses Millie Daugherty, Leana Watts, Grace Pine, Emma Rose, Florence, Eva and Lura Harter.

The Bachelors are making arrangements to entertain with a dancing party at the Elks club at an early date.

**Hidden Beauty**—Clear Complexion.

"Passing Beauty" is often hidden under a chafed skin. Exposure to winter winds will produce a roughness which greatly detracts from what would otherwise be a good impression. The daily use of Sheeran's Cream of Quince seed renders the complexion clear and smooth and the hands soft and white. Good appearance is a personal asset—cultivate it. Price 35c. (Adv.)

## OBITUARY

**William Boner.**  
Mr. Boner, a well known and highly respected farmer, passed away at his home south of the city at 9:30 this morning, after an illness of more than a year's duration, of a complication of diseases incident to advanced years.

William Boner was born in Newark, February 25, 1839, and has lived in Licking county practically all his life. In 1866 he married Miss Holter, and to them were born seven children, the two first-born having died in infancy. The following children survive: Mrs. S. B. Besse of Summit Station, J. W. Boner of near Oultville, M. J. Boner, south of the city, Miss Julia Boner and B. W. Boner of the home. Nine grandchildren also survive him. Besides the widow the children and grandchildren, the deceased leaves two half sisters and one half-brother, Mrs. Keshia Krepps, Mrs. Jennie Burrell and F. A. Boner, all of Newark, besides numerous other relatives and friends.

On March 13, 1916, Mr. and Mrs. Boner celebrated their golden wedding anniversary. Their children, grandchildren and friends to the number of seventy-five participated in the event. He was a faithful member and officer of the M. E. church at White Chapel for a number of years, but in later years when

he found it more convenient to attend services in Newark his church membership was transferred to the First M. E. church of this city. He was a man of convictions. He was industrious, unselfish and Christian in all his life relations. Funeral services will be held on Saturday afternoon at 2 o'clock at the First M. E. church, the pastor, Rev. L. C. Sparks officiating.

**Mrs. Theodore Weiffenbach.**  
Word has been received of the death of Mrs. Theodore Weiffenbach, at the Arcade Hotel in Springfield. Mr. and Mrs. Weiffenbach lived in Newark for several years, while Mr. Weiffenbach was manager of the Hotel Warden. Death came at 12 o'clock Thursday, and the funeral services will be held at Springfield.

**Funeral of Mrs. Ada Smith Haines.**  
The funeral of Mrs. Ada Smith Haines who died on Tuesday of pleuro pneumonia, at her home in Columbus, will be held at the chapel at Cedar Hill cemetery, at 9 o'clock Saturday morning.

## NEW EVENING FROCKS ARE UNUSUALLY SWEET AND SIMPLE

The newest evening frocks for the young person of the debutante age are sweet and simple with not too much decoration. The dress on the left is an orchid colored and embroidered with a hint of the bustle about it and silver lace and embroidery are used for a bit of embellishment. The dance frock on the right is gray with orange and blue velvet flowers and with a sash of velvet ribbon.

## GRANVILLE

(Special to The Advocate.)

Granville, Nov. 22.—The Granville campaign to raise \$1875 for the Y. M. C. A. war fund is completed and the community again is ahead of its quota, with \$2,126 to its credit. Denison University, too, is in sight of its goal of \$2,000 which will make a record for this little place of \$5,209 for war service within a fortnight.

The recital given last evening by members of Delta Omicron and Phi Mu Alpha, the two honorary musical societies of Denison University, comfortably filled Recital Hall with an appreciative audience. The program was brief, consisting of but six numbers of a high degree of musical merit. Performers were: Karl Crilley and Miss Lois Lockhart, a two piano number; Miss Helen Rosell, vocal solo; Stanley Willey, violin solo; Mr. Soule—just pledged to Phi Mu Alpha—tenor solo; Elizabeth Evans, organ solo; Karl Crilley, piano solo. Following the concert a reception was held in the conservatory parlors, at which the fifty or more guests were received by Misses Madeline Edgerly, Helen Ray, Lois Lockhart, and Messrs. Willey, Crilley and Prof. K. H. Eschman. Light refreshments were served by several of the members.

In her talk at the meeting of the A. P. F. W. Tuesday, Mrs. Frank Ray, president of the Red Cross unit here, told some interesting facts in regard to the work. Granville unit belongs to the "Lake Division" of Indiana, Ohio and Kentucky, with headquarters at Cleveland. The total Red Cross membership of Ohio is 413,450, of Indiana, 173,266, of Kentucky, 32,804. She said that those having books and magazines they would like to send to the soldiers, could turn them in to the nearest public library, as all librarians have received instructions

from the American Library Association as to their disposal.

In reference to the surgical dressings Mrs. Ray read the copy of a cablegram received from Major Murphy in Paris: "The Red Cross has direct responsibility of supplying us with surgical dressings and nothing in the whole situation here is equally important. Red Cross standard dressings in millions must be sent on with all speed. If this is not done and done immediately, a serious calamity, and a national disgrace is inevitable." This is sufficiently enlightening and is meeting with a ready response. All women who will come to "the rooms on Tuesday or Friday willing to make bandages and dressings, please come in fresh wash dress and time not really needed in the extra length. And make them 17 to 22 inches across the top—according to the latest directions.

Mrs. John Black of Licking is spending a few days this week at the home of her mother, Mrs. John Larimore in East College street.

Mrs. Frank Ray, her daughter, Miss Helen, and Miss Lily Bell Section of the Denison faculty, motored to Columbus this evening, where they will dine at the Columbus club, afterward attending the meeting of the Columbus unit of Red Cross nurses. Miss Ray will attend the Quality concert in Memorial hall.

Mrs. Jessie Brown has gone to New Philadelphia for a few days; visit at the home of her brother, Dr. Fred Larimore.

At her home in West Broadway, Mrs. E. J. Dorsey delightfully entertained the members of the Winter picnic club on Wednesday afternoon. At the artistically spread tables covers were laid for twenty-four, and during the afternoon busy fingers kept time to cheerful chatter as every member present plied shining knitting needles for the Red Cross.

## WHERE DO YOU LOOK FOR "VALUE" IN COATS?

During the past few days it seems as if we have been doing nothing except unpacking, marking and selling handsome new coats. We've got the coat fever, for as everyone knows, "Coats is in." For Friday and Saturday we have arranged a typical Davies Sale of Women's and Women's and Misses' Coats. It is many-sided—has as many sides as there are bright sides to a coat. "Where do you look for value in coats?" Do you look for it in the cloth, in the style, in the trimming, lining and the little touches of finish that some designers and makers can't keep from letting crop out in every garment they make? If you are a stickler for all these points—if you are a stickler in every detail of material and making—if you are critical from the collar to the hem of a coat—you should see our offerings at—

**\$10.95 \$15.95 \$17.95**  
**\$18.95 \$23.95 \$27.95**

Examine them from every angle. Get down to their special and general get-up. Apply your measure to even the buttons, the pockets, the cuffs—the stitching. We are not one bit afraid of your judgment. Our own standard of quality is high. It has to be—we buy thousands. An error on our part would be serious. We cannot afford to indulge in mistakes. Our capital and our wisdom as merchants are involved. These are the season's greatest coat values. You really should see them before making a selection.

## A SALE OF SERGE DRESSES AT \$12.85

Thirty dresses in the lot, tailored from all wool French Serge in the very newest pleated and high-waisted effects. All colors, including black, navy, taupe, burgundy, green and brown. Our regular \$15.95 garments; on sale Friday and Saturday only.

## Young Women

Are Told How to Find Relief from Pain.

Nashua, N. H.—"I am nineteen years old and every month for two years I had such pains that I would often faint and have to leave school. I had such pain I did not know what to do with myself and tried so many remedies that wore of no use. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and decided to try it, and that is how I found relief from pain and feel so much better than I used to. When I hear of any girl suffering as I did I tell them how Lydia E. Pinkham's Vegetable Compound helped me."—DELINA MARTIN, 29 Bowers Street, Nashua, N. H.

## COMMITTEE GOES TO CAMP TO PLAN CHRISTMAS TREAT

George Graesser, Emmet McDaniel, Byron Dickinson, W. E. Winger and Pete Swann left early this morning for Chullicoth for a visit with the Newark and Jackson county soldiers at Camp Sherman. While at camp they will complete arrangements for the Christmas treat for the boys. It is not fully decided just what it will be or when it will be served, that matter being left to the officers and boys who will participate.

Last evening Lt. J. Vaughn, a foreman at Wehrle's and one of the team captains in West Newark turned in \$14 to Treasurer Emmet McDaniel. The fund is growing and the boys from old Licking are going to be remembered in a substantial manner during the holidays. Committee members in particular are invited to assist in making contributions of dressed turkeys, geese, ducks, chickens, rabbits, cakes, in fact anything good to eat. Call up McDaniel and announce your contribution.

## SATURDAY'S GAME IS LAST AT HOME FOR THE BIG RED

Denison's meeting with Wittenberg Saturday is the last appearance at home for the Big Red squad. In addition it is homecoming day for students and alumni of the Granville university and there is every indication that the day will be a big one.

Neither Denison nor Wittenberg has met this year in college football tests and both teams are making special preparation this week for the Saturday contest.

THE MODERN DENTIST  
Is no longer that monster every one has been taught to dread but he is a real friend who can relieve pain and suffering.

Newly discovered methods and appliances, skillfully applied, eliminate almost entirely the pain and suffering which was incident with old time methods. We employ all the latest appliances and methods for the elimination of pain, so that you need not fear coming here for your dental work.

Every automobile battery should be carefully tested before the winter season. The service required from a battery in the winter is much more severe than in summer. If your car will be stored during the winter, send your battery to us and let us care for it. Our small charge for this service may save you the cost of a new battery in the spring.

## THE MARKETS

Associated Press Telegram

Chicago, Nov. 22.—Scarcity of offerings brought about an advance in the corn market today, after a little sag at the outset. Initial decline was attributed to assurance that western roads would receive more cars soon to move supplies from the country. Opening quotations which advanced from the same as yesterday's (a rush to the lower) were followed by a material upturn all around.

Prices closed unsettled 1/2 to 3/4 net higher, with January at 1.20 1/2 to 1.22 1/2 and May at 1.17 1/2 to 1.19 1/2. Cuts rose to new high price level for the season.

Liberal receipts of hogs weakened the pork market. Aggressive support was lacking.

On the decline commission house buying developed and losses were substantially overcome.

Wall Street.  
Associated Press Telegram  
New York, Nov. 22.—Irregular changes marked today's initial dealings in the stock market, declines outnumbered gains. Equipments, shipments and specialties reduced 1 to 3 points.

U. S. Steel's one point fluctuation measured the extent of the movement in leading stocks during the dull first hour. Activity of major war specialties at 3 to 2 point gains was ascribed to professional interests. Reading was strongest of the rails, others of that group recovering, however, from early recessions.

Steel's rise to 9 1/2 at noon injected strength to shipments and rails. Foreign conditions were reflected in another low record for Italian exchange, liberty 48 held at 98 to 88.20 and the 4 1/2s at 91 to 89.

The closing was heavy. Liberty 4 1/2s changed hands at 97.90 to 98.20, the 4 1/2s at 91 to 89.20. Stocks were freely offered in the last half of today's session, after early irregularities. Sales approximated 600,000 shares.

## RECRUITS CALLED FOR MOTOR TRAIN FOR SERVICE ABROAD

The local draft board today received a telegram today from Capt. F. E. Frazier, commanding motor supply train, battalion 408, consisting of six companies of 464 men, informing the board that men were needed at once to fill the organization for immediate overseas service. Capt. Frazier states that 100 more men are needed and that the best recruits would be made sergeants and corporals. Overseas pay for sergeants is \$50 per month and corporals \$40 per month. The organization must be completed by Nov. 25. All recruiting offices in Ohio are directed to accept men for this particular branch of the service and here is an opportunity for any Newark youth desiring to see active service in France. Postmaster Frank T. Mercer received a telegram containing the same information.

## AUTO SOLEN WHILE OWNER WATCHES THE MOTION PICTURES

Charles Walters, residing near Houn's Hill, missed his Ford roadster last evening after witnessing a picture show at the Auditorium theater. Mr. Walters left it standing in North Second street about 7 o'clock and the car was missing before 9.

The machine carried license tag 174-131, but if professional auto thieves stole the car they have replaced that number in all probability. Police Chief Jas. Sheridan and local patrolmen have secured the city thinking the car was taken by joy riders and later abandoned, but up until this afternoon had secured no clue to the missing car.

## ESCAPING GAS AND BURNING SOOT ARE FIRE ALARM CAUSES

Central Fire department was called to the home of Ralph Davis in Elmwood avenue shortly after noon today and found a chimney burning out.

There was no damage. At 8:30 last evening the Central department was called to the home of Ned Miller in Hudson avenue. Mr. Miller had uncoupled a gas pipe and the escaping gas ignited from a burning candle a few feet away. The only damage was the scorching of a side wall.

CONCORD.  
Rev. G. B. Clifford will fill his next regular appointment at Concord Sunday, Dec. 2, and will begin revival meetings on Monday evening following. There will be services each evening of the first week of December. The public is earnestly invited to these services.

The Ladies' Aid Society will give a chicken pie supper and entertainment at Concord Friday evening, Nov. 23rd. The proceeds are to go to the Y. M. C. A. fund. Your patronage is solicited.

Many from Concord attended the dedication of the beautiful new mausoleum at Green Hill Sunday afternoon. Lieutenant David Scoville accompanied Oscar Foster on his drive in the interest of the Y. M. C. A. work for the soldier boys last Friday p. m. and was entertained to supper at the Henry Foster home.

Hoelle Hannahs of Newark visited his mother and brother at Concord Sunday.

Mr. and Mrs. James Shank entertained to dinner Sunday Mr. and Mrs. Clarence Wright and Mr. and Mrs. Harley Combs and daughters.

W. L. Emerson lost a valuable horse last week, and wife were shopping in Newark Monday.

## HOW THESE MOTHERS KEEP THEIR BABIES WELL AND STRONG

READ THEIR EXPERIENCES TOLD IN THEIR OWN WORDS

"Both my children have taken Father John's Medicine with good results. I always have a bottle of the medicine in the house for an emergency." Mrs. S. Barson 19 Bailey St. Lawrence, Mass.

"I can recommend Father John's Medicine to anyone that is run down. We have used it in our family, myself, my husband, and my little boy, for years with good results." (Signed) Mrs. J. W. King, 819 St. Clair St., Port Huron, Mich.

"I am sorry for any family that cannot afford Father John's Medicine for their children. It has been of great benefit both to me and my little baby." (Signed) Mrs. Mabel Edgar, R. F. D. No. 1, Shipping Port, Pa.

Mothers especially recognize the value of Father John's Medicine because they know it is a pure and wholesome food medicine which makes flesh and strength without using alcohol or dangerous drugs and is therefore safe for children as well as older people.

Union Station were entertained to dinner Saturday by Mrs. Longwell and daughter, Miss Bertha Messers. Lester Newark and K. I. Dickerson look dinner with Mr. and Mrs. A. P. Butt Friday.

Walter Seville is moving from Concord to the George Seville farm south of Granville for the winter.

James Shank, wife and daughter and A. P. Butt and wife were shopping in Newark Monday.

## Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

## A Collection of Wool Dress Goods

Embracing everything wanted for the Winter season is now on display. There are Handsome Cloakings, Fancy Wool Plaids and Striped Novelties, Broadcloths, French Serges, Point Twills, Silk and Wool Crepes in plain colors.

### BROADCLOTHS

Are handsome for Suits or One-piece Dresses. The richness of the fabric calls for little trimming. A touch of fur on collar and sleeves, and possibly on the bottom of the skirt makes a very stylish costume. Among the colors are navy, green, taupe, plum, grey, black, Burgundy and wine; widths from 50 to 36 inches wide are priced ..... \$2.95 to \$3.50 Yard

### THE FANCY PLAIDS

Make very attractive skirts. Everybody admires the handsome colorings in two-tone and large blocks plaids. These range in width from 48 to 36 inches—price ..... \$2.50 Yard

### SEPARATE SKIRTS MEAN WAISTS—SEE THE FANCY CHIFFONS, \$1.50 YARD

For a dainty Waist these 40-inch chiffons are very pretty. There are many pretty patterns and colors to select from in fancy plaids, two-tone florals, all-over florals and Persian patterns.

### FOR ONE-PIECE DRESSES—THE \$2.00 SILK POPLIN

Is a handsome cloth. A firm weave, soft fabric that will not muss easily. Shown in practically all plain colors, including shades of grey, green, blue, purple, brown.

### YOU CAN MAKE A HANDSOME COAT

From the warm, heavy velours and Burella cloths in our showing. They are so heavy no lining is required, so that buttons is the main trimming required. Colors are Burgundy, brown, navy, taupe and green; 52 to 56 inches wide—prices ..... \$3.50 to \$3.95 Yard

## SPILLED THE MILK WHEN MACHINE HIT WAGON WITH CANS

A wagon loaded with milk cans, and driven by Glen Wright of 721 West Main street, and an automobile collided at the corner of Third and West Main street, Wednesday evening.

The Wright boy was thrown from the wagon, the wagon upset and damaged and the milk spilled. Wright escaped injury, and the driver of the machine agreed to settle for the damage and the loss. The accident occurred as the turn was being made around the tile which stands in the middle of the street.

## NEWARK SOLDIER IS OPERATED UPON; WAS HURT ON GRIDIRON

Word was received by Mr. and Mrs. John Kates of North Fourth street late Wednesday afternoon, that their son, J. Bernard Kates had undergone an operation at the base hospital at Camp Sherman, Chillicothe. The operation followed an injury suffered while playing football last Thursday. Mr. Kates left at once for the camp.

A telegram received this morning from the commander at the base hospital states that he is getting along nicely and that there is no danger.

## MISSIONARY WILL DELIVER ADDRESS ST. JOHN'S CHURCH

Annual thank offering service of the Women's Home and Foreign Missionary society of St. John's Lutheran church, Linwood pike, will be held Tuesday, November 27th at 7:30 p. m. The address of the evening will be delivered by Rev. Allen O. Becker of Cleveland, for 10 years a missionary in India. After the program refreshments will be served.

## SEDGWICK LEAVES ARMY SERVICE TO BECOME A DENTIST

Stewart Sedgwick, son of Dr. and Mrs. W. H. Sedgwick, arrived home late Monday evening from Camp Sherman, Chillicothe, where he was discharged. Sedgwick, who left with the first quota, was released from duty so that he may again take up his studies in dental school at Cincinnati. He was with Battery B, 324th F. A. (Heavy).

### 25 Years Ago

(From Advocate, Nov. 22, 1892.) About 11 o'clock last night R. A. Bishop, proprietor of the Commercial House was aroused by some one in his room and giving chase captured the burglar who was turned over to the police.

A marriage license has been issued to Harry Pryor and Flossie Morrow. The residence of J. W. Holler, north of the city was burglarized during the absence of the family. An overcoat and other articles of value were stolen.

Ernest Johnson has been the recipient of many compliments regarding the efficient manner in which he trained the Mandolin and Guitar club.

Mrs. Anna L. McDermott has been appointed freight and ticket agent of the B. & O. at Durby, Pa.

Thanksgiving dinner—Turkey, cranberry sauce, mince pie and many other delicacies, 25 cents.

Those so fortunate as to be at the concert at Music Hall last evening, regard Fred Mosteller and the coming violinist.

15 YEARS AGO TODAY. (From Advocate, Nov. 22, 1902.) About 2 o'clock this afternoon James Jennings of 63 Wilson street, was struck and run over by a Bolton hack. The heavy vehicle passed over him, but did not seriously injure him as the hack was rubber tired.

Joseph Priest and Fred Siler will leave for Hot Springs, Ark., this evening.

Fred Courson is off duty at the B. & O. on account of a fractured arm.

Little Margaret, youngest daughter of Benjamin Balzer, an employee of the Heisey company, is ill at her home in Elm street.

Mrs. John H. Franklin, Sr., will give a kitchen shower and pedro party for Miss Edith Gorby, Monday.

On Tuesday evening, Mrs. Omar Crane entertained with a farewell party for Mrs. George Neff, who leaves Newark, today, to go to Dayton, where Mr. Neff has engaged in business.

### FARMERS

You cannot afford to leave the corn in the field during the winter months. The corn crop is too valuable to be wasted. We can help you to solve this question. We carry the celebrated C. S. LINE OF CORN-HUSKERS in stock here in Newark. We also have oil-burning engines to furnish the power. You can bring in your team and take a husker home with you. You do not have to place an order and then wait a month for the railroads to deliver one. We have them here. Come and let us demonstrate to you. CHAS. F. STEVENS, 11-22-61 37 S. Third Street.

## JUNIOR CONTESTS HOMER HI SCHOOL

The Junior contests for trip on the corn special to Washington, conducted under the auspices of the Homer High school and open to all pupils attending the Burlington township schools, were brought to a successful conclusion Saturday afternoon when the domestic science contestants put their work on display at the High school building at Homer.

The following girls who are attending the High school remained in the race to the end, Misses Leona Edman and Birdie Dunlap of the second year class, and Miss Faye Heston of the first year class. Miss Leona Edman was awarded the trip.

For the final success of this contest much credit is due to a local committee consisting of Mrs. W. D. Akers, Mrs. J. N. O'Connor and Miss Mattie Turner, in arranging the display and in securing the services of impartial and thoroughly competent judges, Miss Edith Clark, Miss Carrie Zentmyer, domestic science and domestic art teachers, and Miss Louise Thomas, Newark High school teacher of English.

Mr. Clyde Bone, who finishes his High school work this year, was the only corn grower to remain in the contest to the end. His yield per acre was 29.53 bushels at an expense of \$31.54.

MAY COMPLETE JURY FOR DE SAULLES TRIAL

Associated Press Telegram  
Minneapolis, N. Y., Nov. 22.—From a second panel of 50 veniremen the two cases and states in the jury box were expected to be filled today and the introduction of evidence began in the trial of Mrs. Bianca de Saulles for the murder in August of her former husband, John L. de Saulles. Neither side has announced the number of witnesses to be called. Counsel for both the prosecution and defense, however, have declared that "experts," whom they refrain from naming, will testify, this, it is believed, indicates a long legal battle will ensue in which technicalities will figure. The case is not expected to be submitted to the jury before the latter part of next week.
